

<p>Name : Tseng-Cheng Chen</p>	
<p>Current Position: Professor and Director of Laryngology Department of Otolaryngology, National Taiwan University Hospital National Taiwan University College of Medicine, Taipei, Taiwan</p>	
<p>E-mail: tcchen0102@ntu.edu.tw</p>	
<p>Brief Introduction</p>	
<p>Dr. Tseng-Cheng Chen is a distinguished Professor in the Department of Otolaryngology at the National Taiwan University (NTU) College of Medicine and concurrently serves as the Director of Laryngology at National Taiwan University Hospital (NTUH). With a clinical career as a Visiting Staff member at NTUH since 2013, Dr. Chen has established himself as a leading authority in head and neck surgical oncology. He earned his MD from Kaohsiung Medical University and subsequently obtained a PhD in Pathology from National Taiwan University, a dual background that allows him to bridge the gap between advanced pathological research and complex clinical practice.</p> <p>His extensive research portfolio focuses on optimizing diagnostic precision and prognostic stratification for head and neck squamous cell carcinomas. Dr. Chen has pioneered significant work on the feasibility of using needle rinse fluid for Cobas HPV assays to diagnose HPV-positive oropharyngeal cancer. Furthermore, his research has defined critical surgical indicators, such as the Margin-to-Depth of Invasion Ratio (<i>MDR</i>) and the clinical significance of Extranodal Extension (<i>ENE</i>) in nodal metastasis, which are essential for refining adjuvant treatment protocols. A prolific contributor to the field, Dr. Chen’s research is frequently featured in high-impact journals, including the Journal of Clinical Oncology, Annals of Surgical Oncology, and Oral Oncology. He currently serves as the Principal Investigator for multiple research projects funded by the National Science and Technology Council, focusing on the immune microenvironment in head and neck cancers.</p>	
<p>Education</p>	
<ul style="list-style-type: none"> ● MD, National Taiwan University Hospital Graduate Institute of Pathology 	

- PhD, National Taiwan University Hospital Graduate Institute of Pathology

Professional Experiences

- Head & Neck Cancer Clinical Oncology

Research Interests and Areas of Expertise

Head and neck oncology, head and neck ultrasound, and head and neck cancer pathology.
